

## 2024 - Application Procedure to MEDIA Network A Countries: France, Germany, Italy, Spain

### A. OBJECTIVES OF THE EUROPA CINEMAS NETWORK

- ◆ Increase and diversify programming in cinemas for European films and raise attendance for them, with a priority on non-national films.
- ◆ Encourage European exhibitors in their initiatives to attract Young Audiences.
- ◆ Develop a network of cinemas that can set up joint activities at the national and European level.
- ◆ Encourage innovation in the promotion of films and communication with the audiences.

### B. CRITERIA TO BECOME PART OF THE EUROPA CINEMAS NETWORK

#### 1. The network is open to all cinemas that meet the following criteria:

- **European commercial cinemas\*** open to the public since the last 6 months at least, with a ticketing system and officially declared income, technical equipment up to professional standards and safety conditions that meet national legislation.

\* *European commercial cinema: business, corporation, association (or any other type of legally declared entity) owned, either directly or by majority participation, by residents of countries participating in the MEDIA programme and established in these countries. Pornographic cinemas are excluded.*

- **Minimum number of annual screenings for permanent cinemas: 520**

A reduced limit of 370 screenings is accepted for single-screen cinemas or cinemas operating under particular conditions (in regions with very few cinemas, multi-function establishments with reduced but regular programming, etc.).

For outdoor cinemas, a minimum of 30 screenings a month is required.

Seasonal touring cinemas and itinerant networks must provide evidence of at least 200 screenings a year.

- **Programming of recent films:** The network can include first-run cinema establishments that show recent European films, within 12 months of their national release. At least 70% of all European screenings must be of first-run films.

- **Priority for first-run European films:** the programming must include a minimum of 70% SE dedicated to first-run films, meaning films shown within 12 months of their original national release.

- **Minimum number of seats per establishment: 70.**

- **Minimum number of seats per screen in cinemas with 2 or more screens: 50.** If a cinema has one or more screens with seating for less than 50, these screens will be counted so as to reach the required

minimum of 50 seats. Europa Cinemas thereby reserves the right to sign an agreement counting fewer than the actual number of screens.

- **Minimum number of admissions over 12 months: 30,000** tickets for Germany, Spain, France, and Italy
- The programming studied will be the one taking place during the first semester of 2024 (1<sup>st</sup> January – 30<sup>th</sup> June 2024). Therefore, the minimum numbers of screenings and admissions to reach are adapted to a 6 months period.

## 2. Required screening percentages to enter the network

- **Percentage of European and Non-National European Screenings (SENN): The following thresholds need to be reached** (columns 2 and 3), depending on the number of screens

**Table 1: A Countries - France, Germany, Italy, Spain**

### **Maximum Non-National European Screenings by nationality:**

Should different films of a single nationality make up a significant portion of non-national European film screenings, they must not exceed:

- 33% of SENN for cinemas or groups of cinemas with more than 5 screens,
- 50% of SENN for cinemas or groups of cinemas with 2 to 5 screens,
- 66% of SENN for 1-screen cinemas.

## 3. Mini-network

Cinemas that wish to work together in mini-networks must meet the European programming criteria individually. Acceptance of mini-networks is given priority in countries/regions where Europa Cinemas is under-represented.

With regard to the distribution of support within mini-networks, programming support must be shared proportionally to each cinema's results in the area of Non-National European Screenings. Europa Cinemas will ask the network leader for proof of payment to the co-beneficiary(ies).

The Validation Committee considers the following criteria when making its decisions:

- the cinema's performance in terms of numbers of admissions and events,
- the total percentage of European programming evaluated with regards to the market conditions in the area,
- the geographic balance of cinemas in the country and region with priority given to national and regional capitals, university towns, key cities for spreading cinema, mid-sized cities that are strategic for economic, geographic or cultural reasons. Particular attention is granted to countries or regions with low production capacity and/or that are restricted linguistically or geographically. In these countries, formation of mini-networks of cinemas is encouraged.

Applications accepted by the members of the Validation Committee in October take effect on the 1<sup>st</sup> January of the current year.

#### **Mini-network:**

Cinemas within one country that wish to be counted together in order to reach the minimum admissions and screening levels and that meet the programming goals set in the guidelines can cooperate as a mini-network, pooling their results. These cinemas can be represented by a single coordinating and/or programming body.

#### **National/Non-National European Film:**

A European film is considered a national film in the country participating in the MEDIA / Creative Europe programme whose residents/citizens participated for the majority in the elaboration of the film. It is considered non-national in all other countries.

In the impossibility of determining the leading nationality of a European co-production, it will then be considered a European non-national film in all European countries.
